□ Approach photo□ Scalable photo□ Placement photo	☐ Artwork☐ Graphics Standards☐ Site Plan	

- 1. Who is their local or national competition? What does their signage look like?
- 2. What are the weaknesses in their competitions identity (bad logo, ugly sign, bad sign location)?
- 3. What are the strengths in their competitions identity (great logo, awesome signage)? Can the sales person provide photos of the local competition?
- 4. What colors would they like to incorporate; what colors do they want to avoid?
- 5. Describe the marketing hurdles they are trying to overcome with new signage. "People can't tell what we do and can't find the entrance to our business."
- 6. What visual impression does the customer want the sign to portray (quality, class, flashy, contemporary, western, eclectic, conservative, wild)?
- 7. How should the sign incorporate existing marketing or design elements?
